MONOLITHIC POWER SYSTEMS, INC.,

Plaintiff,

v.

O2 MICRO INTERNATIONAL LIMITED,

Defendant.

O2 MICRO INTERNATIONAL LIMITED,

Counterclaimant,

v.

MONOLITHIC POWER SYSTEMS, INC.,  
ASUSTEK COMPUTER INC., ASUSTEK  
COMPUTER INTERNATIONAL  
AMERICA, BENQ CORPORATION, AND  
BENQ AMERICA CORP.,

Counterclaim-Defendants.

Case No. C 08-4567 CW

**ORDER CONCERNING DUTIES AND  
INSTRUCTIONS FOR COURT-APPOINTED  
EXPERT**

1 Subject to the conditions set forth in this Order, the Court hereby appoints Dr. Perreault  
 2 as its expert witness. *See* Fed. R. Evid. 706. As the court-appointed expert, Dr. Perreault shall  
 3 serve as a neutral, independent expert on behalf of the Court on the technology at issue in this  
 4 case. His duties shall be to provide expert analysis and opinions as to the technical issues in this  
 5 case concerning infringement/non-infringement and validity/invalidity of the asserted claims  
 6 (*i.e.*, claims 1, 2, 4, 7, 8, 9, 11, and 14) of U.S. Patent No. 7,417,382 (“the ‘382 patent”). These  
 7 issues shall include (1) whether any or all of the accused products of Monolithic Power Systems,  
 8 Inc., ASUSTeK Computer, Inc., and/or ASUS Computer International literally infringe any of  
 9 the asserted claims of the ‘382 patent and (2) whether any or all of the asserted claims are invalid  
 10 in view of the prior art, by reason of either anticipation or obviousness.

11 Dr. Perreault will be provided with various materials to use as resources when forming  
 12 his opinions. He is not limited to these materials, and may request additional information if he  
 13 believes that it is necessary. He may give these materials as much weight and consideration as  
 14 he believes in his professional judgment is required.

15 Copies of the following materials will be provided to Dr. Perreault within five days of the  
 16 entry of an order appointing him, in organized binders that are labeled and tabbed:

- 17 (i) The model jury instructions for patent cases in the Northern District of California;
- 18 (ii) The ‘382 patent;
- 19 (iii) The file history of the ‘382 patent;
- 20 (iv) O2 Micro’s Final Infringement Contentions with respect to the ‘382 patent;
- 21 (v) All product materials cited in the referenced Final Infringement Contentions;
- 22 (vi) Each Counterclaim-Defendant’s Final Invalidity Contentions with respect to the  
 23 ‘382 patent;
- 24 (vii) All prior art references cited in the referenced Final Invalidity Contentions;
- 25 (viii) Monolithic Power Systems, Inc.’s (“MPS”) Second Amended Complaint;
- 26 (ix) O2 Micro’s Answer and Counterclaims to MPS’s Second Amended Complaint;
- 27 (x) Each Counterclaim-Defendant’s pleading in response to O2 Micro’s Answer and  
 28 Counterclaims to MPS’s Second Amended Complaint;

- 1 (xi) The expert reports on infringement/non-infringement and validity/invalidity  
2 exchanged by the parties in this case (subject to agreed redactions, if necessary, as  
3 to products no longer in the case), [and non-duplicative expert reports, if any,  
4 exchanged in the ITC proceeding (Investigation No. 337-TA-666)];
- 5 (xii) All of the post-hearing briefing exchanged by the parties and ITC Staff in the ITC  
6 proceeding (Investigation No. 337-TA-666), redacted as and if necessary to  
7 exclude materials relating solely to Microsemi);
- 8 (xiii) This Court's Order (Dkt. 285) on Claim Construction and Cross Motions for  
9 Summary Judgment;
- 10 (xiv) The April 19, 2010, Initial Determination on Violation of Section 337 and  
11 Recommended Determination on Remedy and Bond, issued by Judge Gildea in  
12 the ITC proceeding (Investigation No. 337-TA-666), redacted as and if necessary  
13 to exclude portions relating solely to Microsemi; and
- 14 (xv) The Parties' and Staff's petitions for review of the Initial Determination, if any,  
15 and oppositions to such petitions for review, in the ITC proceeding (as these are  
16 filed with the ITC), redacted as and if necessary to exclude portions relating  
17 solely to Microsemi.

18 The parties will send these documents to Dr. Perreault jointly.

19 If additional materials are subsequently identified, and the parties disagree about the  
20 propriety of providing a certain document or thing to Dr. Perreault, the parties will seek the  
21 Court's assistance. Neither party shall provide that document or thing to Dr. Perreault unless and  
22 until the Court has resolved the issue.

23 Among other things, Dr. Perreault may look to the expert reports and other materials  
24 provided by the parties for guidance as to what the experts and the parties believe are the key  
25 issues to be addressed in this case. However, it is not his role to critique the parties' experts. His  
26 opinions are to be his own independent opinions.

27 Dr. Perreault should follow the basic rules of patent law as set forth in the model jury  
28 instructions for patent cases in the Northern District of California, including the requirement that

1 he must follow this Court's prior Order interpreting the meaning of certain patent claim terms.  
2 He is not required to provide a detailed analysis of patent law. If Dr. Perreault requires further  
3 guidance regarding patent law terminology, or the relevant legal standards, he can direct  
4 inquiries to the parties or the Court with respect thereto.

5 After reviewing the materials provided to him, and conducting his own independent  
6 analysis, Dr. Perreault will prepare an expert report, containing a statement of his opinions and  
7 the reasons for his opinions. Dr. Perreault may want to attach claim charts as exhibits to his  
8 report. The Court and the parties are looking for a basic statement of Dr. Perreault's opinions in  
9 this case. Although he may look to other expert reports for guidance as to formatting and  
10 standard content, no specific format is required. His report should be sent to the parties by email  
11 and express mail no later than June 14, 2010.

12 In his expert report:

- 13 (i) With respect to infringement, Dr. Perreault will offer his opinion on whether each  
14 and every element of the asserted claims can be found in the accused MPS and  
15 ASUSTeK/ASUS products. Dr. Perreault should conduct his own independent  
16 analysis on infringement. The parties will provide him with blank versions of  
17 claim charts in electronic format for his convenience.
- 18 (ii) With respect to invalidity by anticipation, Dr. Perreault will offer his opinion on  
19 whether or not each and every element of each of the asserted claims can be found  
20 in any one item of prior art. With respect to invalidity due to obviousness,  
21 Dr. Perreault will offer his opinion on whether or not the differences between the  
22 claimed invention as set forth in each of the asserted claims, on the one hand, and  
23 the prior art, on the other hand, are such that the subject matter as a whole would  
24 have been obvious on July 22, 1999 to a person having ordinary skill in the art.  
25 Dr. Perreault should assume for this analysis that the priority date of the '382  
26 patent is July 22, 1999. He may consider as prior art (1) prior inventions known  
27 or used by others in the United States before July 22, 1999, (2) patents or printed  
28 publications in this or foreign countries created before July 22, 1999, (3) offers

1 for sale or public use prior to July 22, 1998; (4) U.S. patents issued on  
2 applications filed before July 22, 1999; and (5) prior inventions made in the  
3 United States before July 22, 1999 by others who had not abandoned, suppressed,  
4 or concealed their inventions. Dr. Perreault should conduct his own independent  
5 analysis on anticipation. The parties will provide him with blank versions of  
6 claim charts in electronic format for his convenience.

7 (iii) Dr. Perreault should conduct his own independent analysis on obviousness. The  
8 parties will provide him with blank versions of claim charts in electronic format  
9 for his convenience.

10 The parties will depose Dr. Perreault on or before June 17, 2010, at a location that is  
11 convenient to him. At the deposition, the parties may ask him questions, and he will be given the  
12 opportunity to explain his opinions in greater detail prior to his testimony at trial. Each party  
13 may depose Dr. Perreault for up to 3.5 hours.

14 Dr. Perreault will testify at trial on his opinions. Dr. Perreault will testify after the  
15 parties' experts, and thus will not be required to give a lengthy tutorial on the technology at issue  
16 to the jury. The trial is scheduled to begin on July 12, 2010 and may continue for up to two  
17 weeks. The Court and the parties will attempt to accommodate Dr. Perreault's schedule and to  
18 give him as much advance notice as possible as to what day (or days) he will be needed to  
19 testify. Trials are complex matters, however, involving many witnesses, so flexibility will be  
20 required. The parties will pay for all of Dr. Perreault's reasonable hotel and travel expenses.

21 Dr. Perreault may contact the Court by calling its clerk at (510) 637-3542 if questions  
22 come up or if he encounters difficulty in accomplishing his assigned tasks. The clerk will  
23 arrange a conference call with the attorneys. He may also contact the Court by letter, with a  
24 carbon copy to the parties, or by emailing the clerk and "cc"-ing the parties. The clerk's email  
25 address is "nikki\_riley@cand.uscourts.gov." In addition, Dr. Perreault may contact the parties  
26 directly, by using the e-mail addresses that they will provide to him, if he needs additional  
27 documents or other information. Dr. Perreault, however, shall not contact only one party, as it is  
28

1 important that both sides be given the chance to communicate with him jointly if needed. The  
2 parties will set up a conference call if necessary.

3 In order to accept this appointment, Dr. Perreault must give his consent to serve as the  
4 Court-appointed expert in this case, and must acknowledge his responsibility to discharge his  
5 duties in accordance with the instructions set forth in this order, by signing below and returning  
6 the signed original to the Court in the enclosed envelope.

7 Dr. Perreault must also confirm that he has no conflict of interest. Specifically,  
8 Dr. Perreault should provide the information requested in the attached "Disclosure Form." He  
9 may provide this information in the same envelope containing his consent.

10 O2 Micro shall pay for half of Dr. Perreault's fees and expenses, and the Counterclaim-  
11 Defendants will share equally the other half. O2 Micro will deposit a retainer of \$20,000 in the  
12 Howrey trust account, and Counterclaim-Defendants will deposit a retainer of \$20,000 in the  
13 Latham & Watkins trust account. Dr. Perreault may bill at his usual hourly rate or at an agreed  
14 rate commensurate with the rates paid to the parties' expert witnesses.

**CONSENT**

I consent to serve as the Court's expert in the case of *Monolithic Power Systems, Inc. v. O2 Micro International Ltd.*, No. C 08-4567, and will discharge my duties in accordance with the instructions provided to me by the Court.

Dated: \_\_\_\_\_, 2010

**DISCLOSURE FORM**

Please answer the following questions:

1. Do you presently provide any goods or services (paid or unpaid) to any entity on the Attached List? If yes, please explain in detail.

2. Please provide a list of all companies in the business of analog and/or mixed signal integrated circuits for which you have consulted or worked in the past four years, and for each state the nature of your work.

3. Have you or any member of your family to your knowledge ever had any professional, business or social relationship with any person on the Attached List? If yes, please explain in detail.

4. Do you own any stock or have any other type of financial interest in any entity on the Attached List? If yes, please identify the entity(ies) involved.

5. Have you been involved in a dispute related to intellectual property in the last five years? If yes, please explain in detail.

6. Have you ever served as an expert witness or consultant to any party or person on the Attached List? If yes, please explain in detail.

7. Please describe all contacts you have had with any person or entity on the Attached List related to this matter, and if such contacts were in writing, please attach copies of such writings to your response.

8. Please disclose any other matter that could cause a person aware of the facts and circumstances of this case to entertain a reasonable doubt that you would be impartial as the Court's expert. Any doubts you have as to whether to disclose a matter should be resolved in favor of disclosure.
